koud (blauw)

150 mm

850 mm

770 mm

Aansluitmaat: ca. 1100 mm
Connection dimension: ca. 1100 mm
Dimension de raccordement: ca. 1100 mm
Aansluitmaat: ca. 1100 mm

de

Anschlussmaße nicht bindend, da flexible Schläuche Variationsmöglichkeiten.

Faustformal: Unterkante Kopfbrause = Körpergröße + 15 cm. Hinweis: Idealerweise sollte die Höhe der Duschpaneele an die Körpergröße des Kunden angepasst werden, indem durch Anhalten die optimale Position ausprobiert und angezeichnet wird. Dabei ist darauf zu achten, dass keine Schläuche geknickt bzw. gequetscht werden. Das Duschpaneel muss beim Anhalten angeschlossen sein, um eventuelle Kollisionen erkennen zu können.

en

Connection dimensions are not fixed since flexible hoses allow for variation. Rule of thumb: Lower edge of the head shower = body height + 15 cm. Note: ideally the height of the Duschpaneele should be adjusted to the height of the customer by holding it in place and trying and marking the optimum position. In so doing, care should be taken that no hoses are kinked or crushed. When holding it in place, the Duschpaneele must be connected in order to detect any problems.

fr

Dimensions de raccordement sans engagement de notre part car les tuyaux flexibles sont sujets à des possibilités de variation. Règle approximative: bordure inférieure de douchette de tête = taille corporelle + 15 cm Remarque: L'idéal est que la hauteur du Duschpaneele soit adaptée à la taille corporelle du client en testant la position optimale par maintien et en marquant des repères. Veiller alors à ce qu'aucun tuyau ne soit plié ou écrasé. Lors du maintien, le Duschpaneele doit être raccordé afin de pouvoir détecter d'éventuelles collisions.

nl

Aansluitmaten niet bindend, omdat flexibele slangen variatiemogelijkheden bieden. Vuistregel: Onderzijde hoofddouche = lichaamslengte + 15 cm. Opmerking: In het ideale geval wordt de hoogte van de Duschpaneele aan de lichaamslengte van de klant aangepast door te meten en zo de optimale positie uit te proberen en dan te markeren. Daarbij moet erop gelet worden dat de slangen geen bochten hebben of in de knel zitten. De Duschpaneele moet bij het meten aangesloten zijn om mogelijke collisions te kunnen markeren.

de Achtung !
Vor der Montage Zuleitungen und Wasseranschlussgewinde gewissenhaft reinigen (Dichtungsreste entfernen) und spülen (bei geöffnetem Haupthahn ca. 3 Min. Wasser laufen lassen) da sonst Schmutzpartikel die Funktion des Duschpaneels beeinträchtigen!

en Note !
Before assembly, clean the feed pipe and wall connection carefully (remove remains of joint packing) and rinse them out (allow the water to run with the main stopcock open for about 3 min.), otherwise dirt particles might affect the function of the showercolumn!

fr Attention !
Avant le montage, nettoyer minutieusement la conduite d'alimentation et le filet de raccordement mural (enlever les restes de joints) et rincer, (laisser couler de l'eau pendant environ 3 minutes avec le robinet principal ouvert) sans quoi des particules de saleté risquent d'affecter le fonctionnement de colonne de douche!

nl Let op !
Maak vóór de montage toevoer en wandschroefdraad-verbinding zorgvuldig schoon (verwijder de afdichtingrestanten) en laat er water doorlopen (ca. 3 min. bij open hoofdkraan), omdat anders vuildeeltjes de werking van de douchepaneel schaden!
